DISASTER MANAGEMENT COMMITTEE

Date:10-07-2018

Disaster management refers to the collective efforts and strategies implemented to prevent, prepare for, respond to, and recover from the adverse effects of natural or man-made disasters. It involves comprehensive planning, coordination, and execution of measures aimed at minimizing the impact of disasters on human life, infrastructure, and the environment.

Objectives

- Enhance the level of preparedness among the college community to effectively respond to potential disasters.
- Implement measures to mitigate the occurrence or minimize the impact of disasters through proactive actions and risk reduction strategies.
- Develop an efficient and coordinated response system to provide immediate assistance and support during disasters.
- Facilitate the recovery and rehabilitation process to restore normalcy and rebuild the affected areas after a disaster.
- Increase awareness and understanding of disaster risks and their management among the college community and the wider public.
- Provide training and educational programs to enhance the skills and knowledge of individuals involved in disaster management.
